

Not all Microsoft Partners are Equal

Microsoft Promotion

We are offering to deliver endpoint management, end point patch management and O365 data protection to you as part of your migration to us. DELIVERED FOR FREE! If you like these cloud services then you can continue with the subscriptions into the future. IF they are not for you then we will turn them off. The promo is that Simple!

Offer includes the following:

- Fully implemented 30 day trial of AppAffinity to handle end point patching of 3rd party applications to reduce end point risk of security breach
- Fully implemented 30 day trial of O365 managed backup to provide industry leading level of O365 protection
- Free assessment and design service helping you to Integrate these technologies and also Intune end point management into your environment

This is a unique offering providing huge value to your organisation.

The offer is even more significant given the prevalence of #WFA and at the same time the #cybersecurity headwinds that are ever present and which we are directly addressing for and with you.
