

IT ANYWHERE

About ITAnywhere

Our hosted compute service offers you access to your data and applications regardless of location. Fully managed with remote support for maximum confidence and service. We offer our clients the latest cloud platform built bespoke for you:

- Unlimited infrastructure scale and flexibility giving you the right computing performance based on your requirements and budget
- Host your practice management and other line of business applications
- Highly secure datacentre and computing environment with multi-factor authentication
- Modern workplace with Microsoft Office 365 and cyber security included
- Predictable cost control of IT expenditure – one monthly bill for your computing needs

Consuming IT Anywhere

This service is available as an Op-Ex cost where you pay for what is consumed. This model also ensures that there are no future IT infrastructure Cap-Ex spikes to budget for. We have worked with many clients and have demonstrated a reduction in TCO over a 5-year period exceeding 40%.

About Us

Established in 1988 and provide IT Support Services & Solutions throughout the UK and internationally as part of the Concepta Capital Group. PAV joins Oriium Consulting Ltd (Oriium) as a wholly owned subsidiary of the Concepta Capital Group. PAV focuses entirely on direct customer engagements, while Oriium focuses on the sale of goods and services through many channel sales organisations including PAV.
